Magodo GRA Lagos

PROFESSIONAL SUMMARY

Full Stack Web Developer with strong experience building scalable web applications, RESTful APIs, and backend systems using Python and Django. Skilled in designing secure and efficient APIs, implementing authentication and permission-based systems, and optimizing application performance. Experienced in Quality Assurance, including manual testing, API validation, bug tracking, and browser-based debugging using developer tools to identify and resolve issues. Strong collaborator with a focus on clean code, problem-solving, and delivering reliable, user-centered applications.

WORK EXPERIENCE

- 2025-2026
QA ENGINEER
OUTLIER
 - Performed manual quality assurance testing on web applications and AI systems to identify functional usability, and performance issues.
 - Used browser developer tools to inspect network requests, API responses, console logs, and front-end behavior for debugging and issue detection.
 - Reviewed backend logic and system outputs to ensure accuracy, consistency, and compliance with requirements.
 - Logged and documented bugs with clear reproduction steps and improvement suggestions.
 - Collaborated with teams to validate fixes and ensure quality standards were maintained.

- 2025
FULL STACK WEB DEVELOPER
BAKES N CRAVE
- Developed and managed a full eCommerce platform for Bakes N Crave using React and Tailwind CSS for the frontend, and backend services with Python (Django) and MySQL. Built RESTful APIs, implemented authentication, and integrated data-driven features to deliver a complete user experience.
- 2024
FRONTEND WEB DEVELOPER
SPACEAIR
- Designed and developed responsive landing pages and frontend interfaces for startups and e-commerce platforms using React, JavaScript, and Tailwind CSS. Built the complete frontend experience for the SPACEAIR startup platform.
- 2017-2018
IT SUPPORT SPECIALIST
EKO FM
- Provided technical support for broadcast system: office hardware, and software troubleshooting.
 - Assisted in maintaining system uptime and resolved network-related issues.
 - Supported live broadcast setup and ensured smooth daily operations.
